

## Deck

Charles Leonard Construction (CLC) focuses on metal decking projects in the New England, New York and New Jersey areas.

Our services include estimating, project management, fabrication of related accessories and detailing. We also stock a wide array of metal deck profiles, custom cut to length, available for next day delivery.

Our suppliers are Steel Deck Institute (SDI) certified.

We have the capability to take on design build projects from start to finish, including PE Stamp, project management and site erection.
